SUMMARY

I am an Angular Developer with 3.6 years of experience in building scalable web applications. My expertise includes using Angular, TypeScript, HTML and CSS to create responsive user interfaces and deliver high-quality code in Agile environments. I have a solid understanding of performance optimization and a passion for ensuring a seamless user experience through clean design and efficient architecture

EXPERIENCE

09/2022 - Present

Chennai

Angular Developer
Cloud IQ Technologies

Angular development focused on building scalable web applications
- Utilized Angular 12 and 17 with RXJS for building applications
- Worked with HTML, CSS, StatsIg, Azure Boards, state management using NgRx, and unit testing with Jest.

12/2021 - 08/2022

Bengaluru

Angular Developer
JRSPF Technologies

Involved in building and maintaining web applications
- Developed web applications using Angular 14, HTML, CSS, and TypeScript
- Collaborated with design tools Figma and Bootstrap, as well as version control using Git and Github
- Conducted testing with Jest, Karma, Jasmine and utilized JIRA for project management

SKILLS

Angular 17	Angular 12	HTML	CSS	JavaScript	TypeScript	Animation	Azure	Bootstrap	Figma

Git	GitHub	Jasmine	Jest	JIRA	Karma	REST	RESTful API	Agile	Handlebar JS

PROJECTS

42 Students

📅 12/2021 - 08/2022

A platform designed for college searches
- Developed a responsive college search platform enabling students to explore college rankings based on location and filters.
- Implemented a freemium model: basic college info available freely, with additional insights accessible via membership
- Focused on performance optimization, clean UI/UX, and scalable architecture using Angular and TypeScript

Voyager

📅 01/2023 - Present

Module for managing wellness memberships
- Developed the Wellness membership module using Angular, enabling users to enroll in exclusive monthly or annual plans for discounted pet care services
- Designed intuitive UI components for plan selection, membership benefits display, and enrollment workflow
- Integrated payment options and plan management features for user subscriptions, renewals, or upgrades

Admin Scribe

📅 09/2022 - 01/2023

A Platform for Doctors to listen to their patients voice note
- Enabled doctors to view patient lists, access recorded audio with transcriptions, and respond with personalized medical advice.

EDUCATION

07/2017 - 05/2021

Hosur

Bachelor of Technology
Adhiyamaan College of Engineering

CERTIFICATIONS

🏅 **Basic and Advanced Angular Training**   ⭐ **HTML, CSS, JS Essential Training**
